Bangalore, Karnataka | +91 9663441703 | abhinaik2550@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Aspiring Product Manager with a strong foundation in software development and hands-on experience building scalable web applications using the MERN stack. Experienced in collaborating with cross-functional teams, participating in Agile development processes, and delivering user-focused solutions. Recently completed comprehensive Product Management training covering product strategy, stakeholder collaboration, Agile methodologies, product planning, and product delivery. Passionate about solving customer problems, driving product growth through data-driven decisions, and bridging business goals with technology execution.

SKILLS

- **Product Management:** Product Strategy, Product Lifecycle Management, Market Research, User Stories, Product Roadmapping, Stakeholder Management, Agile & Scrum, Sprint Planning, Prioritization Frameworks, KPI Analysis, Competitive Analysis, Cross-functional Collaboration
- **Programming Languages:** JavaScript, TypeScript, Python, Java
- **Frontend Technologies:** HTML5, CSS3, React.js, Redux, Context API, Bootstrap, jQuery, Responsive Design, DOM Manipulation, SPA Development
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, Server-side Development, API Integration
- **Database Technologies:** MongoDB, MySQL, SQL, CRUD Operations, Database Design, Mongoose
- **Development Tools & Technologies:** Git, GitHub, Visual Studio Code, npm, Webpack, Babel, JSON, AJAX
- **Soft Skills:** Agile Development, Problem Solving, Team Collaboration, Communication, Leadership

CERTIFICATIONS

April 2026 - Jun 2026

- **Product Management: An Introduction** - [link](#)
- **Product Management: Foundations & Stakeholder Collaboration** - [link](#)
- **Product Management: Initial Product Strategy and Plan** - [link](#)
- **Product Management: Developing and Delivering a New Product** - [link](#)
- **Introduction to Agile Development and Scrum** - [link](#)
- **Product Management: Capstone Project** - [link](#)
- **Practice Exam for AIPMM Certified Product Manager (CPM)**

Key Learning Areas: Product Strategy, Product Lifecycle Management, Market Research, Stakeholder Management, Agile & Scrum, Product Roadmapping, Product Launch Planning, Prioritization, Metrics & KPI Analysis.

KEY COURSEWORK — PRODUCT MANAGEMENT CAPSTONE PROJECT

- **PRD Authorship:** Wrote a complete Product Requirements Document for a product feature, defining the problem statement, goals, success metrics, and functional requirements — translating a business need into actionable build criteria
- **Metrics-Based Decision Making:** Analyzed a product case study dataset to evaluate performance against KPIs including retention and engagement metrics, identifying which metric most accurately reflected user value for prioritization decisions
- **Experimentation Analysis:** Reviewed A/B test case-study results to assess feature impact and recommend a go/no-go decision based on statistical outcomes and user behavior data
- **Customer-Centric Framing:** Applied user research principles from coursework to define target user personas and pain points as the basis for the PRD's problem statement

PROFESSIONAL EXPERIENCE

Coders Boutique

Remote

Junior React JS Developer

May 2025 - Nov 2025

- **Full-Stack Development:** Built responsive web applications using Next.js, React, TypeScript, and Tailwind CSS, improving user engagement by 35% and project scalability by 30%
- **API Integration & Authentication:** Implemented secure authentication systems (Google Auth), integrated Supabase and third-party APIs, and optimized backend workflows, reducing development time by 20%
- **Agile Collaboration:** Participated in sprint planning, code reviews, and cross-functional teamwork to deliver UI/UX improvements and troubleshoot critical issues within ClickUp-managed projects

Infocampus Software Training Institute

On-Site

MERN Stack Developer

Sep 2024 - Feb 2025

- **Full-Stack Development & Architecture:** Developed responsive web applications using React.js and Node.js with Redux/Context API state management (reducing complexity by 30%), built scalable server-side applications with Express.js focusing on asynchronous and event-driven architecture, and created reusable React components and custom hooks increasing development efficiency by 25%
- **API Integration, Performance & Agile Collaboration:** Integrated REST APIs for seamless frontend-backend communication and database operations, optimized application performance through code splitting and lazy loading (reducing initial load time by 20%), and collaborated in Agile development environment participating in daily standups and sprint planning meetings

PROJECTS

Job Application Portal (Rojgar Group)

- Developed role-based job portal with JWT authentication, dynamic dashboards for job posting/tracking, and candidate management features .
- Built a responsive UI with cross-browser compatibility and integrated MongoDB for efficient data operations

MERN Stack Contact & Customer Management System

- Created a full-featured CRM with secure file upload, searchable data tables with pagination, and cloud storage integration
- Built RESTful APIs with CRUD operations, error handling, and secure session management with token expiration

React & Redux Dashboard Application

- Built a comprehensive dashboard with real-time data updates, CRUD operations, and optimistic UI updates
- Implemented Redux state management, Chart.js data visualization, and performance optimization through memoization

Lightning Prediction and Alert System

- Developed a deep learning-based predictive system processing historical weather data for lightning forecasting
- Implemented a real-time alert system with model validation using real-world data for accurate predictions

EDUCATION

CGPA: 8.39

Mangalore Institute of Technology & Engineering, Moodbidri
B.E- Information Science & Engineering

Dec 2020 - Jun 2024
